

Duncan & Duncan Inc.

RightCoreWare™

Hardware and software system.
Bar codes, tracks, and
organizes drill samples.

RightCoreWare™ empowers

- Geologists
- Prospectors
- Drill Sample Curators

RightCoreWare™ portable ensemble, based on Windows CE, and similar to that you can expect to lease. Not shown, but just as important: back-end databases hosted on browser-compatible servers.

RightCoreWare™

Dovetails with
EVCO Core Boxes
EVCO Core Chocks

High density 2D bar code captures and preserves drilling data, such as hole number and depth.

RightCoreWare™ prints tough, plastic-laminated labels that are perfect for EVCO Core Chocks and Core Boxes. The labels are readable by both people *and* computers.

Duncan & Duncan Inc.

RightCoreWare™

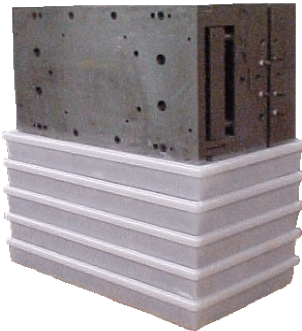

Modern, supply-chain technology.
Helps geologists, prospectors, and
curators to better organize drill samples.

- **Ditch your felt-marker ways**
 - **Kick the habit** of scrawling on wooden blocks
 - **Forget about stapling** nonstandard bar codes
 - **Standardize your drill sample tracking ...**
- ... with **RightCoreWare™**

Why did The Right Stuff of Tahoe
partner with EVCO?
HERE's why
